

GREEK SUMMER

A COMMUNITY SERVICE & TRAVEL ODYSSEY

An unforgettable adventure in Greece

For high school students seeking a meaningful experience abroad

AMERICAN
FARM SCHOOL
Thessaloniki • Greece

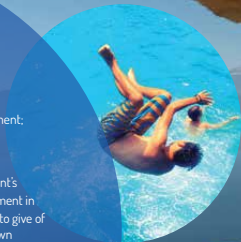

The Program

Embark on an unforgettable four-week life journey. You will see the very best of Greece while learning hands-on how to play a role in protecting our environment; you'll change young lives through a service project in a local village, and make lifelong friends along the way.

Colleges today seek to learn about the depth of a student's character, commitment to others, and genuine involvement in social change. They seek leaders and risk-takers ready to give of themselves - while finding themselves through their own personal journey. You can do all that while having the time of your life!

Experience a home-stay with a family in a local village and take part in a community service project. Climb Mount Olympus. Explore ancient and contemporary Greece. Visit historic villages and cities.

The program helps you develop your cross-cultural skills, empathy, and confidence to learn and thrive in new environments. Greek Summer can be the beginning of your unique Odyssey!

**Make
life-long
memories**

The School

Founded in 1904, the American Farm School of Thessaloniki is not your average school. "Challenging", "Experiential", "Unique", "Residential", "Hands-on", "Green", "Traditional", "Life-changing..." are a few adjectives alums have used to describe the Institution. Building on tradition of preparing stewards of the land and future leaders, the AFS was one of the first schools worldwide established with a required community service component, and our residential campus has allowed this philosophy to become a way of life.

Greek Summer has been offered to U.S. and international high school students since **1970**.

The Staff

Staff are committed educators focused on providing compelling learning experiences. They encourage participants to engage in thoughtful introspection and reflection in order to maximize personal growth. Their knowledge of local culture and extensive training ensure that health and safety are top priorities.

**Build strong
relationships
&
redefine
your world**

**Understand
a new culture
by living it**

To Apply

Greek Summer runs from **late June** to the **end of July**.

Dates and deadlines are subject to change
and are posted on www.afsgreeksummer.com.

Applications are available on the website.

There is a **rolling admissions** process so
early application is recommended.

Students who are in high school are eligible.
